THE OFFER TEMPLATE PACK

10 High-Converting Offer Formulas You Can Customize in Minutes

How to Use These Templates

A great offer isn't about features — it's about clarity.

Each template below gives you:

- ✓ A fill-in-the-blank framework
- ✓ A real-world example
- ✓ A “Why it works” explanation
- ✓ A quick customization tip

Use these to craft offers for services, digital products, micro-courses, automations, content packages, or anything else you build with AI.

TEMPLATE 1 — The “Result Without Pain” Offer

Formula:

“I help [audience] get [specific result] without [big frustration] — using [tool/method].”

Example:

“I help creators publish 30 days of content without wasting hours writing — using AI-assisted batch workflows.”

Why It Works:

This communicates transformation *and* removes fear. It's the simplest and most proven offer structure in digital business.

Quick Customization:

Swap in the *biggest* frustration your niche complains about. That alone increases conversions.

TEMPLATE 2 — The Done-For-You Efficiency Offer

Formula:

“Done-for-you [deliverable] that saves you [X hours/week] for just [\$price].”

Example:

“Done-for-you newsletter drafts that save you 5 hours a week — for just \$149/month.”

Why It Works:

Clients don't want labor. They want time back.

This offer sells *the hours you return to them*, not the work you do.

Quick Customization:

Emphasize the exact time saved. Be specific.

TEMPLATE 3 — The Weekend Build Offer

Formula:

“In one weekend, we’ll build your **[system/product/automation]**, so you can stop **[pain]** and start **[outcome]**.”

Example:

“In one weekend, we’ll build your automated lead-followup system so you can stop losing inquiries and start booking clients.”

Why It Works:

People love fast wins. You’re selling speed + certainty.

Quick Customization:

Choose a pain that feels expensive to ignore.

TEMPLATE 4 — The Quick Win Offer

Formula:

“I help **[audience]** achieve **[specific win]** in **[short timeframe]**, even if **[objection they believe]**.”

Example:

“I help Etsy sellers create a digital product in 48 hours — even if they’re ‘not creative.’”

Why It Works:

This turns skepticism into curiosity by addressing objections upfront.

Quick Customization:

Pick an objection you’ve heard more than twice. That’s the one.

TEMPLATE 5 — The Hybrid Coaching + Tools Offer

Formula:

“Personal guidance + AI-powered tools to help you **[result]** without spending weeks figuring it out alone.”

Example:

“Personal guidance + AI scripts to help you launch your first micro-course without months of planning.”

Why It Works:

You’re not selling time — you’re selling certainty and shortcuts.

Quick Customization:

Highlight the shortcut that saves them the most time.

TEMPLATE 6 — The Subscription Simplicity Offer

Formula:

“Monthly **[deliverable/service]** delivered automatically, so you stay consistent without doing it yourself.”

Example:

“Monthly content bundles delivered automatically, so your brand posts daily without you touching a keyboard.”

Why It Works:

Consistency is the #1 thing people pay for when they can't do it themselves.

Quick Customization:

Show that *you* handle the boring part.

TEMPLATE 7 — The Problem-Solver Offer**Formula:**

"You bring the **[problem]** — I'll create the **[AI-powered solution]** that fixes it in **[X timeframe]**."

Example:

"You bring the workflow — I'll create the AI automation that fixes it in 48 hours."

Why It Works:

Specific problem → specific fix.

People buy clarity.

Quick Customization:

Identify the problem that causes the most day-to-day annoyance.

TEMPLATE 8 — The Micro-Consult Offer**Formula:**

"A 30-minute consult where I diagnose your **[process/pain point]** and give you a simple AI-powered fix you can start using today."

Example:

"A 30-minute consult to fix your content workflow and build an AI shortcut that cuts your time in half."

Why It Works:

People will pay for a shortcut they can implement immediately.

Quick Customization:

Frame the consult as a "fix," not a "call."

TEMPLATE 9 — The Full Build-Out Offer**Formula:**

"I'll build your entire **[system/process]** from scratch — planning, setup, automations, and delivery — so you get results without lifting a finger."

Example:

"I'll build your entire digital product funnel — landing page, automations, deliverables — so you wake up to sales."

Why It Works:

This is the highest perceived value template in the pack.

Quick Customization:

Add one sentence about what this *replaces* for the client.

TEMPLATE 10 — The Rapid Validation Offer

Formula:

“I’ll test your idea with real people, gather feedback, and tell you exactly whether to pivot or proceed — within [timeframe].”

Example:

“I’ll validate your product idea with 10 real prospects in 72 hours and tell you exactly what to build.”

Why It Works:

People fear wasted time more than wasted money.

You’re selling certainty.

Quick Customization:

Emphasize the number of real data points they get.
